

- LEGEND**
- Migmatite with volcanic and granitic paleosome
 - Early phase (granodiorite)
 - Late phase (quartz monzonite)
 - Mafic metavolcanics
 - Felsic hypabyssal rocks (quartz-feldspar porphyry)
 - Felsic breccia and pyroclastics
 - Granitic intrusives (Taylor Lake Stock)
 - Fault

- Samples analyzed for rare-earth elements:
- Babag(1979): E, Early phase; L, Late phase; P, Porphyry; R, Melanocratic inclusions.
 - T, Thundercloud Lake porphyry

MAP 3: Geology of the Meggisi-Thundercloud Lakes area (from Maps 2437 and 2438, Blackburn, 1981)
