

LOCAL 199 U.A.W. CENTRE

**OFFICIAL  
OPENING  
CEREMONY**

*"Nearly 40 years ago, a handful of spirited and dedicated workers resolved to build a union—and to work with their fellow men. This building then, is living proof of one of their accomplishments."*

---

This new U.A.W. Centre was initiated by collective effort of the leadership and the membership of Local 199, U.A.W. It was designed by MacDonald & Zuberec Architects of the city of St. Catharines and constructed by Hope-Loch Construction Ltd.

This project has been viewed from its inception as a real credit to the community, it stands as a monument of what workers can do collectively. With continued teamwork in the leadership, dedication and desire in the membership, new objectives and goals will be set and accomplished in the future.
