<b>Summary of Contents:</b>	<p>This is an invoice book most likely from the business of Mr. M. G. Scott. Receipts from wholesalers are listed as being sold to Mr. Scott. There are also a number of pages listing people's (customers?) names and work done for them, perhaps by Mr. Scott. Work listed includes: buggy repairs, welding, sharpening shears, sets of shoes (for horses?), new tires setting, farm equipment repairs etc. The book also notes how the customer paid. At the back of the book there is a listing of different animals' names. Pages 1-43 have had their invoices removed, except for one on page 32. It appears as though many pages have been torn out of the book.</p>
